# emmanuel f. eco-friendly practises

***As with your health, we contribute to the health of our planet by committing to eco-friendly practises***

**Eco-friendly design** with natural materials and recyclable furniture from bamboo wood to **toxin-free paints** & glue...

## **Air quality**

Using exclusively natural, organic products, we offer an environment **free of chemical smells**

## **Waste reduction**

- We do no longer use **aluminim foils** during the highlight process
- We use a top quality water filtration system instead of plastic water bottles
- And we sort our waste...

## **Water**

- Using natural products, we reduce chemicals being washed away in water systems
- We purchased water-saving equipment and trained our staff to follow water-saving rules

## **Energy saving**

- Our salon & spa is equipped with **LED lighting & TV screens** as well as energy efficient electrical appliances
- We trained our staff to follow energy-saving rules (air-con, lighting)

## **Sustainable purchase policy**

We source sustainable and eco-friendly supplies in order to buy as natural as possible from **bamboo gowns, to organic cotton towels**, shopping bags made of recycled water bottles, organic drinks...

## **Hygiene procedures**

We use **eco-detergents** to wash towels and gowns after each client and we use eco-friendly products to clean the salon.
